1: Overview: Key themes & areas of focus for the month:

February is sure to be an interesting month. Some themes this month:

Embracing diversity; trying new approaches; accessing the higher mind for solutions, inspiration and fresh ideas; connecting with friends/community more than usual. Solutions and realizations can occur in an instant and at anytime and in odd or unusual ways! Humanitarian concerns and the Global community are a major focus.

•**About the Olympics...I admit to being rather concerned about them being held in South Korea** but now, after taking a closer look at the astro-influences during that time, I'm actually really excited. And yes it's possible that something truly awful could occur as the world environment is unfortunately quite unstable to put it mildly. But that would be the lower expressions of the energy present and well I'm focusing on what is possible and positive. •**8th/9th/10th — Moon and Mars in Sagittarius with Sun-Mercury-Venus in Aquarius.** Since Sagittarius rules foreign countries and with both the Moon and Mars there this aspect serves as an invitation to explore and embrace other cultures and ways of life which is a great, and appropriate, astro-combo for opening the Olympics!

•**Venus enters Pisces on the 10th and will there until 3/6.** This is a very inspirational placement for Venus and increases a sense of hope and faith. During this time it's somehow easier to express unconditional love and genuine acceptance of others. Deep and meaningful healing can occur as you're inclined to forgive and let go of past hurts and wounds. •**Mercury enters mystical Pisces on 2/17 and be there until 3/5.** This placement of Mercury can make focused, logical thinking a bit of a challenge yet encourages using your intuition and to pay attention to your hunches. This is because

the sign of Pisces tends to pull us into our imaginations and even other dimensions and can be elusive and vague when it comes to our mental functions. As a result you may become unfocused, confused and/or disoriented more often during this time...but it does enhance the creative process!

Outer activities and areas getting additional

focus: Groups, friends, neighbors and online communities plus humanitarian concerns are emphasized. Your life vision and dreams. Expect the unexpected and unpredictable while welcoming the quirky and unusual.

Inner focus/qualities: Connecting with your higher mind thus raising your frequency allowing new realizations and insights to enter. Paying attention to your intuition and hunches.

What qualities/aspects to focus on:

Opening to new perspectives resulting in a shift of priorities or direction. Envisioning and embracing your true potential. Welcoming diversity.

What to be careful of: Being *too* eccentric or taking risks because you're bored or just impatient. Being detached from your feelings. Getting mentally over stimulated which can be related to too much time on electronic devices, TV, etc. Being aloof.

What to be grateful for: New insights. Seeing that you're being guided from within/above even when you can't see/feel it at times. Discovering new pathways for moving forward towards your dreams.

What special opportunities to look for this

month: Be on the lookout for synchronicities, coincidences and flashes of insights as all can bring guidance, insights and messages. Consider new options especially those you wouldn't ordinarily. Innovative solutions can appear from nowhere! >More on all of the above on February ACM.

2: Full Moon ~ New Moon Info

12th>15th~Balsamic Moon Phase occurs 3+ days before the New Moon and is the most mystical time of month making it easier to perceive the gateways and portals between the worlds bringing opportunities to see/sense "behind the veil." Your intuition is stronger than usual. Use this mystical energy to tap into what is deeply meaningful to you. Watch for subtle messages.

15th~New Moon/Solar Eclipse in Aquarius @ 1:06 pm PT: *Some issues/topics emphasized by this NM:* Collaborations, your vision and what you hope for, the global family, friends and community,

innovative ideas, insights and solutions arrive bringing the potential for realizing greater truth and thus gaining clarity. There's a sense of destiny or fate in play as the Sun and Moon aligns with the the south node indicating that you may need to backtrack and take care of or complete something before going forward.

3: Message for the Month: "The Numerology of 2018-Part 1"

As I mentioned when I announced the ACM format changes in November (and on the ACM site) I intended to branch out into some other topics. This month on *Track-2: Message for the Month* I delved into the world of numerology which is something I've never done on ACM. However because the numerology of both 2017 and 2018 offer great insights into the current dynamics and reflect what many are experiencing I thought I would share some thoughts about it.

4: Spiritual Focus for the Month (Also read about the Balsamic Moon above):

Key spiritual themes this month: Connecting to your higher mind which allows you to open to/download new perspectives, ideas and truths. Discovering more about your dreams and vision for this life. Developing your intuition. Also emphasized: Metaphysics; Astrology, ESP; the etheric body.

This month's visualization: "Meeting Your Soul Group" Being on a spiritual path can be lonely at times. From time-to-time you may experience being misunderstood or that you're not really being seen or heard for who you truly are. Yet on the inner planes you are connected to a group of souls who travel near you, not only in this lifetime, but also others and whom you share a similar vibration with and so feel accepted, supported and loved when in their presence. Here in this visualization, which was inspired by a dream I had several years ago, you will encounter your own Soul Group.

Aquarius (the Solar Focus for the Month) is: "The Light that shines on Earth and which ever shines within the dark and is cleansing with its healing rays that which must be purified until the dark has gone." (From Esoterist Malvin Atley)

Affirmation: I allow my uniqueness to shine and I share it in ways that will help others.

Quote: "Being true to yourself and your dreams is a very high form of spirituality." ~Unknown
